

# Frankliniella yuccae

## Distinguishing features

This species has not been studied by the present authors. It is probably a synonym of the common *F. occidentalis*, although the antennae of the holotype are longer than usual (Nakahara, 1997: 378).

## Related species

Currently *F. yuccae* cannot be distinguished satisfactorily from *F. occidentalis*.

## Biological data

Presumably flower-living, and taken from *Yucca*.

## Distribution data

Recorded only from California.

## Family name

THRIPIDAE - THRIPINAE

## Species name

*Frankliniella yuccae* Moulton

## Original name and synonyms

*Frankliniella yuccae* Moulton, 1936: 171
