

## Caladenia longicauda subsp. redacta

### Name and Authority

**Caladenia longicauda subsp. redacta** Hopper & A.P.Br.

*Caladenia longicauda subsp. redacta*

### Synonyms (previous names)

Arachnorchis longicauda subsp. redacta

### Common Name

Tangled White Spider Orchid

*Caladenia longicauda subsp. redacta*  
distribution

### Complex Name

Caladenia longicauda (White Spider Orchids)

### Originally Described by

Stephen Hopper & Andrew Brown in Nuytsia 14:118-120, Fig. 20 (2001)

*Caladenia longicauda subsp. redacta*

### Distribution and Habitat

Mt Barker to Toodyay, growing in sandy-clay soils in forests and woodlands.

*Caladenia longicauda subsp. redacta*

### Flowering Months

· · · · · Sep Oct · ·

### Description

A common subspecies 200–400 mm high with a hairy leaf 100–250 mm long by 8–12 mm wide and up to three predominantly white flowers 60–80 mm across.

### Distinguishing Features

It is distinguished from the subsp. eminens, with which it intergrades at the western edge of its distribution, by its smaller flowers, usually shorter labellum fringe segments and mostly more westerly distribution.

*Caladenia longicauda subsp. redacta*
